

HAND TOOLS

ALWAYS THE RIGHT TOOL!

CATALOGUE

The new kwb hand tool catalogue

Dear customers,
Welcome to our new kwb Hand Tools catalogue.

For more than 85 years, kwb Germany GmbH has provided a system for the supply of power tool accessories and hand tools.

Experience, great stock availability, dependable quality, innovative thinking and action combine together to create a good, strong brand.

This is what kwb Germany GmbH stands for. It is our goal to purchase kwb items at the highest quality level from all over the world.

kwb Germany GmbH proves this day in, day out, with passion and dedication to you, our partners.

We are pleased to introduce the new kwb Hand Tools catalogue.

The catalogue has been completely modernised, and the layout made clearer. Enhanced with many attractive and innovative new products, there is also a range of important information, and tips for the correct use of the kwb hand tool range.

With this new Hand Tool catalogue we want to give you the means to develop a closer working relationship with us.

True to our slogan „...always the right tool!“ kwb offers its customers, and in turn their customers, all that they need for their workshop.

kwb headquarter in Stuhr near Bremen

Range overview hand tools

PLIERS

PLIERS	12–17
VDE pliers	18
Electronic pliers	19–20
Special pliers and accessories	21–28

KNIVES AND SCISSORS

Knife blades and knife sets	32–35	Trapezoidal blades	48
Trapezoidal blade knife	36–39	Special types	49–50
Special knives	40–41	Working scissors, household scissors and handicraft scissors	51–54
Multifunction tool and pocket knife	42–44	Scraper	55
Craft knife	45	Garden shears	56
Snap-off blades	46–47		

SCREWING TOOLS

Box wrenches and open-end wrenches	61–64	Other screwdrivers	78–84
Special keys	65–67	Socket wrench	85–89
Screwdriver	68–72	Tapping tool	90–92
VDE Screwdriver	73–74		
Pin wrench	75–77		

TOOL CASES

Tool case, 129-pcs.	94	Tool case, 40-pcs.	97
Tool case, 99-pcs.	95	Tool case, 63-pcs.	97
Tool case, 51-pcs.	96	Tool case, 199-pcs.	98
Tool case, 65-pcs.	96		

CLAMPS

Glue guns	101–102
Clamps, expanding clamps and screw clamps	103–104
Vices and other clamping tools	105–106

**HAMMERS
CHISELS AXES**

Hammers	110–118	Hand countersink, awl and nail drill	130
Centre punches, chisels and punching irons	119–123	Manual wire brushes	131–132
Chisel	124–125	Accessories for hammers and axes	133–137
Files and rasps	126–129	Nail lifting bars	138

HANDSAWS

Wood saws	142–148	Accessories for laminate and parquet tools	159–160
Mitre saws and cutting shops	149–150		
Metal saws	151–155		
Planer	156–158		

MEASURING TOOLS

Belt dimensions and scales	164–167	Measuring instruments and search devices	178–180
Caliper	168–169		
Angles and bevels	170–172		
Directives	173–174		
Water truck	175–177		

MASONRY TOOLS

Drywall planer and drywall accessories	184–189	Bricklaying tools	205–207
Spatula, tiling tool and masonry tool	190–197	Trowels, spatulas and drywall accessories	208–215
Tiling tools	198–202	Grating boards and straightening laths	216–220
Accessories for bricklayers and tilers	203–204		

**ADDITIONAL
HAND TOOLS**

Glass cutter	224	Barrier tape	228
Suction lifter	224	Insulating tape VDE	228
Marker pens	225	Tube cutter	228
Marking crayons	226	Telescopic quick support	229
Draw tape	227	Sharpening stone	229
Household drain cleaning coil	227		

Catalogue summary

1

2

Combination pliers ★★★★★

Combination pliers, shape acc. to DIN ISO 5746, CV steel, matt satin finish, 2-component grip for optimal power transfer and fatigue-free working, with grip zones for flat and round workpieces for multi-purpose use, with flat cutters and bevelled edges, for hard and soft wire, cutters hardened. With practical pliers holder for the workshop, simply screw the plastic clip on the workshop wall.

kwb qualities

2

kwb stands for quality.

With the triple-graded quality system from kwb, you can always find the right tool for your particular needs and levels of use.

★★★★★
PROFESSIONAL

The best kwb quality, suitable for continuous professional use

★★★★
HIGH QUALITY

The high value kwb quality, suitable for trade use

★★★
QUALITY

The good everyday quality for DIY use

kwb symbols in product tables

In some sections of our catalogue there are technical symbols in the product tables. Here is a brief explanation of these symbols.

Pliers	
	Plier length
Saws	
	Toothing
Building and tiling tools	
	Thickness

Screwdrivers	
	Grip length T-grip screwdrivers
	Grip length DUO-LINE screwdrivers
	Width of screwdriver blade
	Length of screwdriver handle
	Working length DUO-LINE screwdrivers

Sockets	
	Bit length
	Working length
	Drill length
	Shaft diameter

PLIERS

PLIERS

The benefits of pliers

- pliers with ergonomically shaped grips with 2-component construction
- user-friendly and comfortable working
- almost play-free joint for easy and consistent opening and closing of the plier jaws
- The Professional series is made of blanks forged in Germany

Range overview pliers

Pliers

CrV steel, matt satin finish, box joint, finely serrated grip surfaces. 2-component grip for three-way slip protection, for optimal power transfer and fatigue-free working.

Page 12 – 17

Electronic pliers

matt satin finish, 2-component grip for optimal power transfer and fatigue-free working, self-opening, especially for working with electronic components and in precision engineering.

Page 19 – 20

VDE pliers

CrV steel, box joint, 2-component grip with slip guard, for optimal power transfer and fatigue-free working, especially for working on electrical installations, protect up to 1000 volts AC or 1500 volts DC.

Page 18

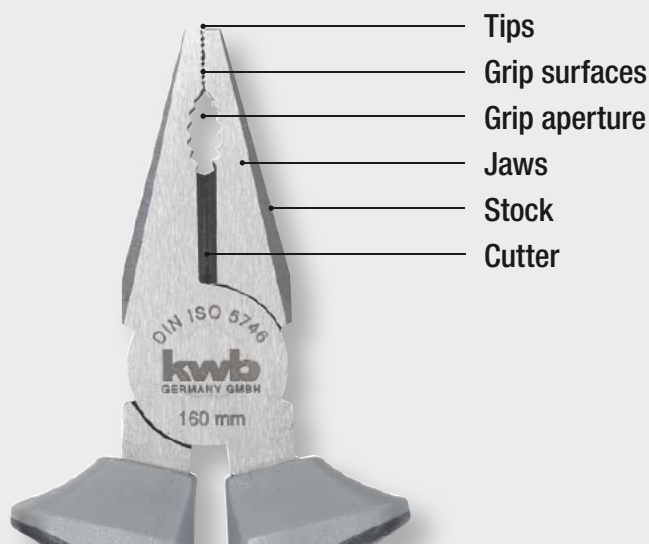

kwb-Info

VDE insulation- safe working on live electrical installations

There are strict health and safety standards relating to work on live electrical installations, such as the German DIN VDE 0105 or the international EN 50110 as well as IEC 60364, kwb tools which bear the special **1000 V** symbol are authorised for live working use up to 1000 V AC.

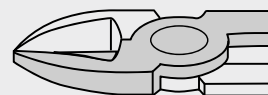

Technical terms

Joint types

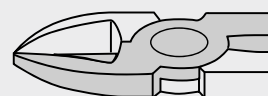

Overlaid joint

Both halves of the plier lie against each other without any overlap

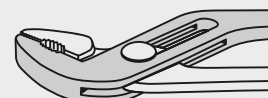

Box joint

Both halves of the plier overlap at the joint so that they are fully interlocked

Groove joint

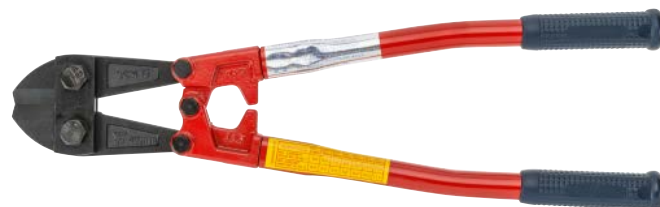

One half of the plier is grooved. The other half can fit into any of the grooves. The joint can withstand high loading, because the link bolt is capped both ends, and supported on both sides.

Waterpump pliers

Shape of water pump pliers acc. to DIN ISO 8976, box joint, with crush protection, raw blade forged in Germany, carbon steel, surface grey, partly polished, 2-component grip for optimal power transfer and fatigue-free working, grip surface serrated, 7-stage adjustment, for holding all kinds of large diameter items.

Page 16 – 17

Bolt croppers

Replaceable jaws, high cutting performance with minimal effort due to optimum combination of cutting angle and force applied, tubular steel handles with plastic grips

Page 21 – 22

Crimping pliers

with non-slip 2-component grip for optimal power transfer and fatigue-free working, for stripping insulation and snipping off wires, crimping jaws for crimping insulated and non-insulated cable terminals and plugs.

Page 26

Accessories

kwb always has the right accessories, for cable terminals, cable ties, pop rivets to eyelets, kwb offers a wide range for every application.

Page 24 – 28

Tongs

Combination pliers

PROFESSIONAL ★★★★★

Shape of combination pliers acc. to DIN ISO 5746, raw blade forged in Germany, fine polished anti-glare carbon steel, 2-component grip for optimal power transfer and fatigue-free working, with grip zones for flat and round workpieces for multi-purpose use, with flat cutters and bevelled edges, cutters additionally induction-hardened, for hard and soft wire. Very high quality for a long service life.

Garden shears

Multi-purpose stainless steel garden clippers

QUALITY ★★★★★

190 mm long multi-purpose garden clippers with 2-component handle, offers comfortable non-slip grip. Fresh greenery can be effortlessly cut with the 50 mm tapered blades. The slim straight shear head allows for quick, neat and precise cutting of flowers, plants, herbs, garden work, young shoots or other objects. The lock is used to easily close the multi-purpose clippers for safe storage, suitable for right and left-handed persons.

SCREWING TOOLS

SCREWING TOOLS

The advantages of our screwdrivers

- CrV steel
- with 3-component grip for optimal power transfer and non-slip working
- blade CrV steel
- VDE Screwdriver, VDE/GS tested
- quickly distinguishable colour code system
- practical screwdriver holder for the workshop, simply screw the plastic clip on the workshop wall

Range overview Screwing tools

Open end spanners

TÜV Rheinland GS tested, DIN 3110, CrV steel, satin finish, wave profile, for use with hexagonal or square nuts and bolts.

Page 62 – 64

Ring spanners

TÜV Rheinland GS tested, DIN 838, CrV steel, satin finish, wave profile, for use with hexagonal or square nuts and bolts.

Page 61, 63 – 64

Adjustable spanner

CrV steel, satin finish, 2-component grip for optimal power transfer and fatigue-free working, adjustable wrench for loosening and tightening threaded fasteners, jaw width continuously adjustable.

Page 67

L-socket offset wrenches

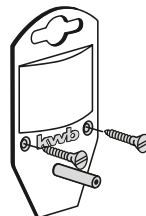

Matt chrome plated, both ends the same spanner size, special hollow profile with hexagon in handle, the short head is through-bored for accessing nuts on studs or close to edges, with wave profile, especially for working on studs and threaded rod.

Page 66

PACKAGING CLIP CAN BE USED AS CONVENIENT TOOL HOLDER

MUST HAVE

Simply fix the clip with 2 screws on the tool wall ...

... then hang up the screwdrivers - and have the right screwdrivers readily to hand!

Engineer's screwdrivers

CrV steel, 3-component grip for optimal power transfer and slip-free working, blade CrV steel, matt chrome plated, with chemically blacked precision tips. Quickly distinguishable colour code system shows the desired blade shape. With practical screwdriver holder for the workshop, simply screw the plastic clip on the workshop wall..

Page 68 – 72

Stubby screwdrivers,

CrV steel, 3-component grip for optimal power transfer and slip-free working, matt chrome plated, with chemically blacked precision tips. Quickly distinguishable colour code system shows the desired blade shape. With practical screwdriver holder for the workshop, simply screw the plastic clip on the workshop wall.

Page 69 – 70

VDE insulated screwdriver,

VDE certified, CrV steel, 3-component grip for optimal power transfer and non-slip working, blades fully insulated, with chemically blacked precision tips. Quickly distinguishable colour code system shows the desired blade shape. With practical screwdriver holder for the workshop, simply screw the plastic clip on the workshop wall.

Page 73 – 74

Hexagon key

DIN911, CrV steel, one end with ball head for off-centre applications in areas difficult to access.

Page 75 – 76

T-grip screwdriver

with hanger for the workshop wall, simply screw the plastic clip on the workshop wall. CrV steel, 2-component grip for high power transfer and slip-free working, chrome plated, short and long blade, for significantly more powerful working as compared to conventional screwdrivers. Colour code system on the package for easier allocation to different applications.

Page 78 – 79

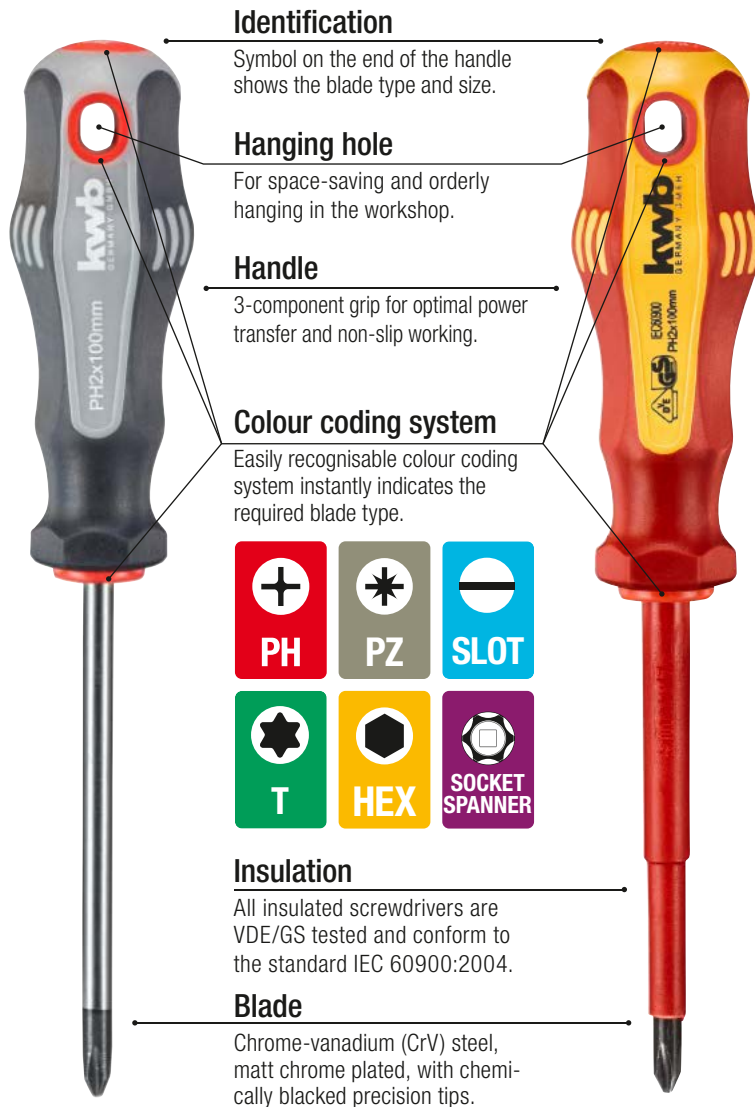

Torque wrench

Verchromt, CV-Stahl, selbstauslösender automatischer Drehmomentschlüssel mit eingebauter Umschaltknarre, hohe Meßgenauigkeit, Skala in Nm und lbs/ft. Messung bei Rechts- und Linksgang; Antrieb: 1/2", in Kunststoffbox

Page 67

TECHNICAL TERMS

Design

The flat-headed rotatable top enables fine adjustment, particularly useful in precision engineering.

Colour coding system

Easily recognisable colour coding system instantly indicates the required blade type.

Handle

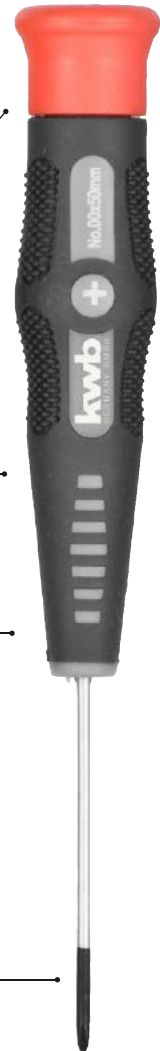

2-component grip for optimal power transfer and non-slip working.

Identification

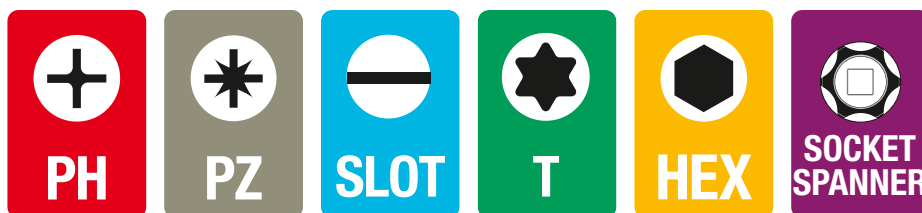

Symbol on the end of the handle shows the blade type and size.

Blade

Chrome-vanadium (CrV) steel, matt chrome plated, with chemically blacked precision tips.

10 screws, ⊕ PZ, 19 x 2 mm
10 screws, ⊕ PZ, 25 x 3 mm
10 screws, ⊕ PZ, 30 x 4 mm
10 nylon dowels 8 mm in yellow
10 nylon dowels 6 mm in red
10 nylon dowels 5 mm in blue

6 spring clamps, 2 "
1 measuring tape 3 m x 16 mm
1 hacksaw + 3 saw blades

CLAMPS

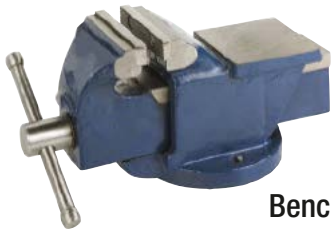

CLAMPS

The benefits of the clamps and expanding clamps

- The quick release allows the workpiece to be changed quickly or the one-handed clamp to be positioned easily.
- The clamp handle enables comfortable and safe use of the clamp, as it has an anti-slip effect.
- A turning mechanism allows the head part to be released and attached to the other end of the clamp.
- Continuous and tireless work possible.

Range overview clamps

Bench vice with anvil

sturdy vice made from impact resistant cast steel, hardened jaws with hammered finish.

Page 105

PROFI F-clamps

Malleable cast heads, grooved stock, toothed both sides, with slip protection, 2-component grip for optimal power transfer and non-slip working

Page 103

Quick action clamps, wooden

Wooden. With cork pads on the clamping points, suitable for many woodworking and joinery applications, leaves no marks on the workpiece, for holding, clamping and glueing.

Page 104

Clamp / spreader

Extra high clamping force, with quick clamping and quick release, for holding, clamping, glueing and spreading.

Page 104

Glue guns

Plastic-spring clamps

HIGH QUALITY ★★★★★

swivelling jaw protectors, powerful spring, for glueing or bonding operations, and for clamping, holding etc.

776198	135 mm		1	4 009317 761983

Precision machine vice

PROFESSIONAL ★★★★★

Prism form polished steel jaws, hardened, sturdy machine vice with clamping spindle for drilling and milling operations, with prism jaws for straight clamping even on round workpieces, the jaws are recessed so that thin materials can also be securely clamped, the base plate has two clamping slots so the vice can be securely bolted down to the workbench

Art.-No.	Jaw width	Clamping width			Barcode
777006	63 mm	60 mm		1	4 009317 777006
777008	80 mm	80 mm		1	4 009317 777008

Ball joint vice

HIGH QUALITY ★★★★★

With quick clamping, removeable rubber jaw covers, the whole clamping head can be continuously rotated and tilted without having to unclamp the workpiece

Art.-No.	Jaw width	Clamping width			Barcode
776900	75 mm	60 mm		1	4 009317 769002

Vices and other clamping tools

Corner vice

HIGH QUALITY ★★★★★

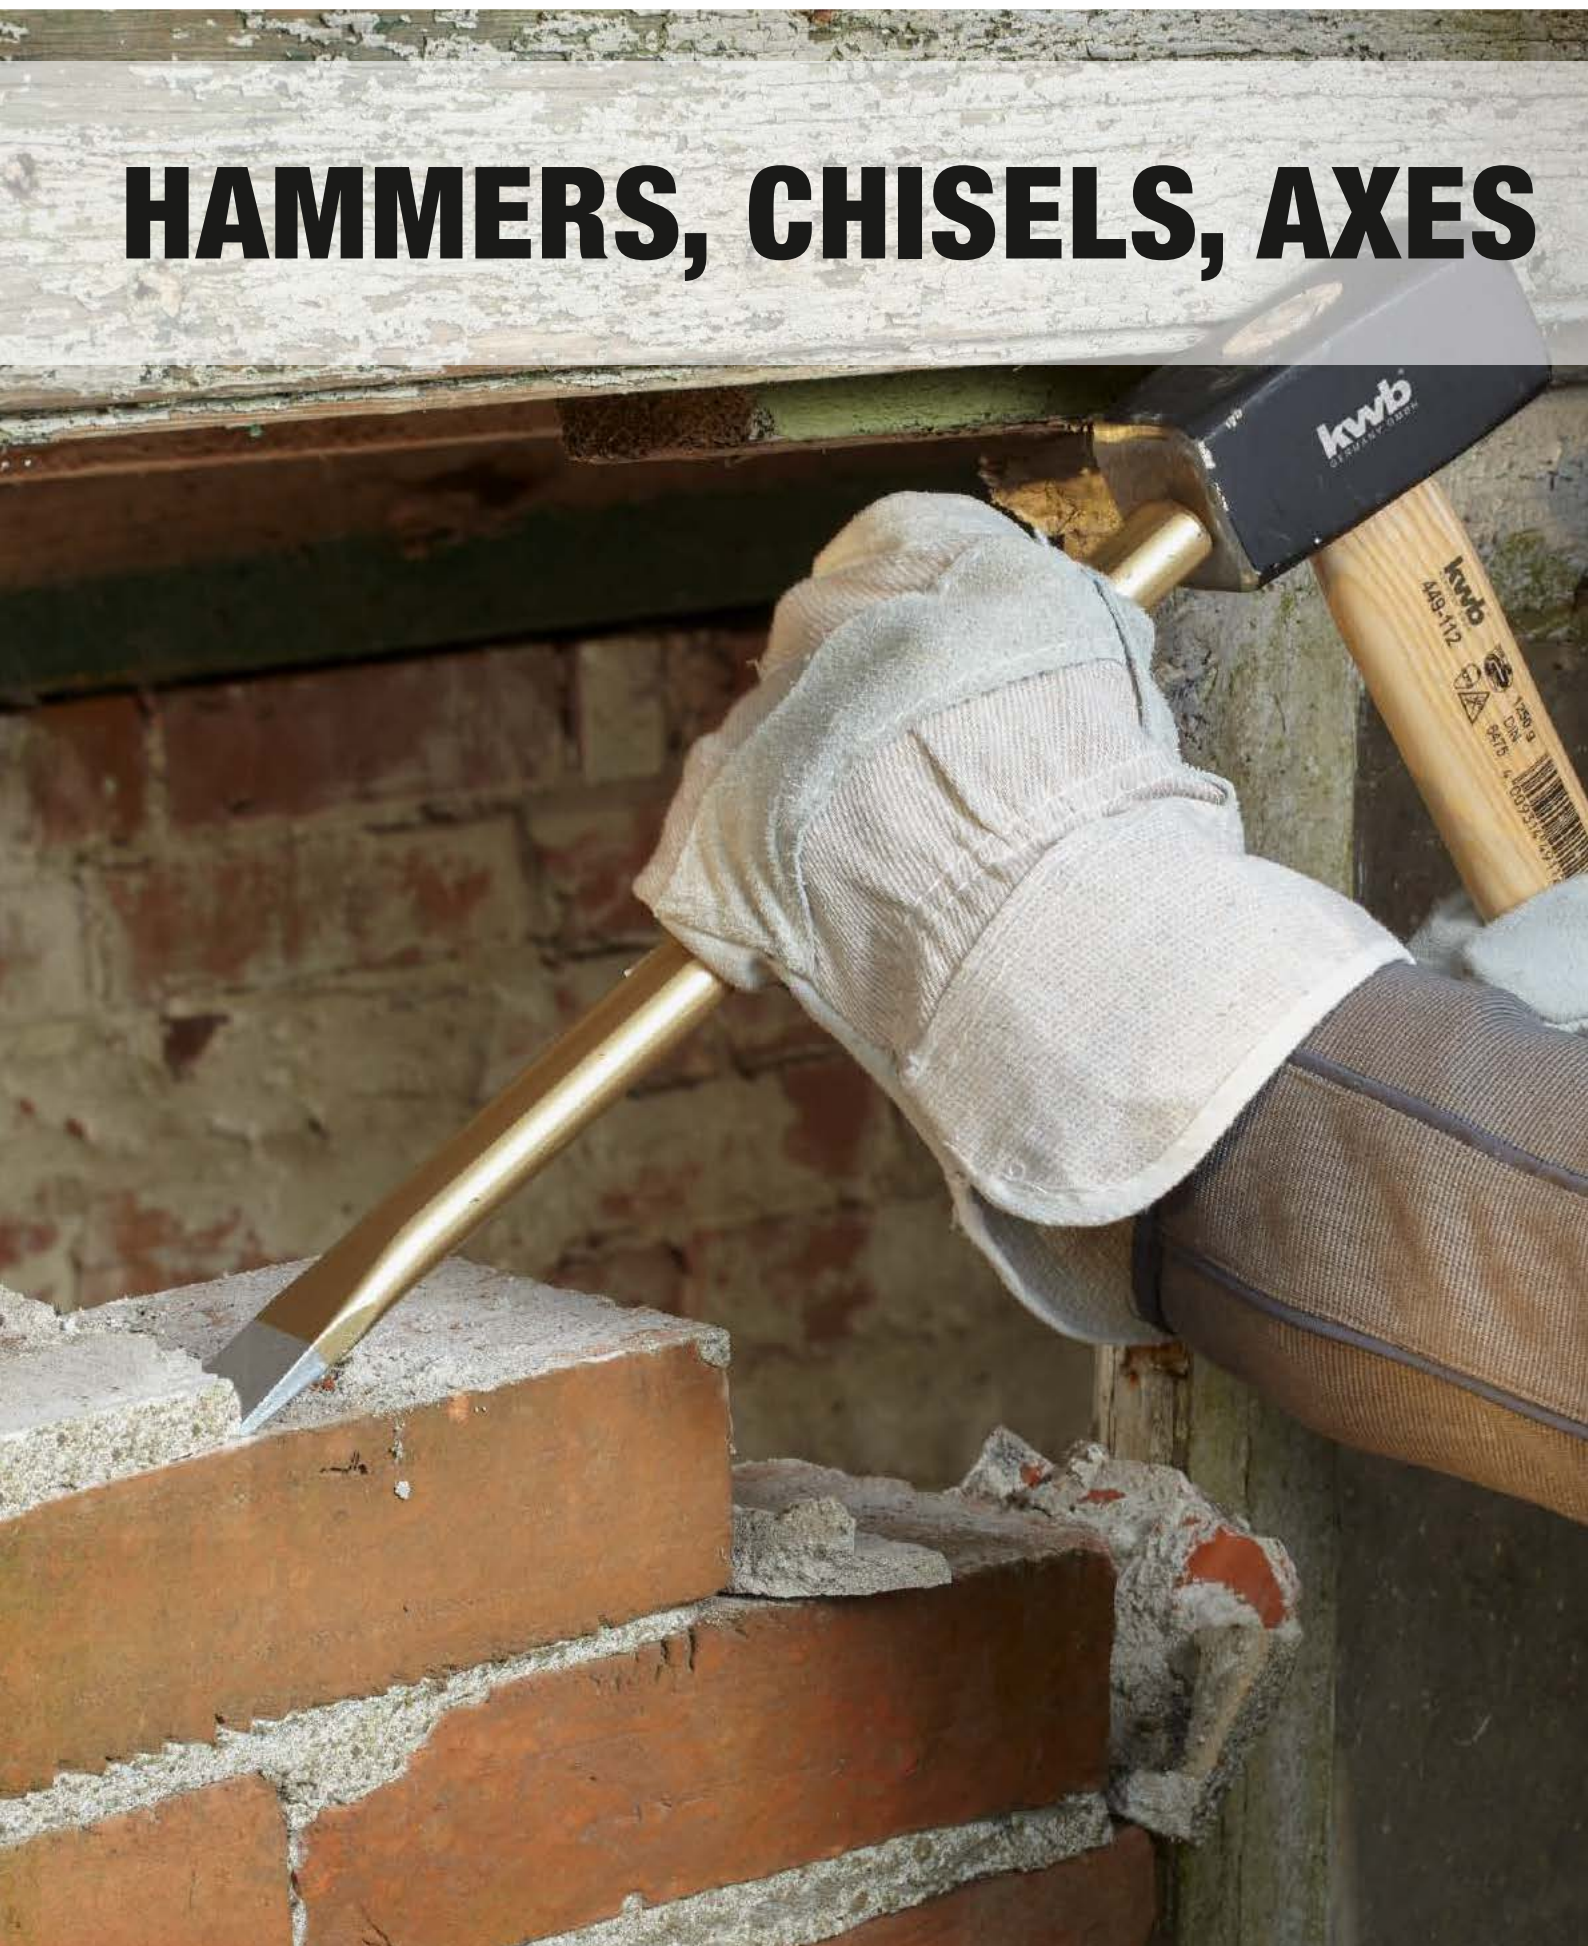

Assembly aid, also for workpieces of different thicknesses, for quick and easy working, thanks to the swivelling jaws and clamping screw uneven workpieces can be clamped at right angles, for glueing, screwing, welding etc.

Art.-No.	Clamping width			Barcode
983300	60 / 47 mm		1	 4 009319 833008

HAMMERS, CHISELS, AXES

HAMMERS, CHISELS, AXES

Our promise:

- We have the right hammers for a wide range of jobs. You'll hit the nail on the head with our range.
- Whether large or small demolition work: We always have the right chisel for your job.
- With our axes and hatchets you can reliably cut small wood. Suitable for felling, limbing and splitting trees.

Range overview hammers, chisels, axes

Engineer's hammer, ash shaft

VPA GS tested, to DIN 1041, head and pein polished, ash shaft, with shaft protection sleeve.

Page 110 – 111

Roofer's hammer

VPA GS tested, to DIN 7239, with magnetic nail holder, nail puller, solid steel, specially hardened working surfaces, serrated high-grip striking face, minimal recoil, with non-slip 2-component grip for optimal power transfer and fatigue-free working.

Page 111 – 112

Claw hammer, fibreglass shaft

Fibreglass shaft, polished head, rounded striking head, nail removing claw, minimal recoil, head and claw hardened and polished, with non-slip 2-component grip for optimal power transfer and fatigue-free working, also for removing nails.

Page 112 – 113

Wooden mallet

Oiled, white beechwood head, ash shaft, for woodworking and for use with wood chisels

Page 116

Chisels

VPS GS tested, CrV steel, for a variety of chiselling and breaking jobs on masonry, concrete and loose rock.

Page 119 – 122

Wood chisel

CrV steel, ground extra sharp, red beechwood handle, in plastic wallet

Page 124

Files and rasps

for sharpening, deburring and smoothing, cut 1 and 2, surface machining, machining of right-angled geometries, chamfering, for wood and metal working, 2-component handle for optimum power transmission and non-slip working.

Page 126 – 129

Axe

DIN5131, Ash wood shaft, curved cow-foot shaft profile for easy and efficient use, for general use in forestry, agriculture, private woodland or garden.

Page 134 – 135

Hatchet

DIN5131, Safety fibreglass shaft, curved shaft profile for easy and efficient use, non-slip grip coating for safe working, for splitting logs, branches etc.

Page 114, 133

Logging tongs

For forestry work, for lifting and dragging logs, claw opening up to 18cm, made from forged special steel, plastic handle with leather grip.

Page 137

Log splitting maul, wooden shaft

Ash wood shaft, forged hammer- and splitting head, extra large striking face, for splitting wood and insertion of wedges.

Page 117

Hammers

Engineer's hammer, ash shaft

PROFESSIONAL ★★★★★

VPA GS tested, to DIN 1041, head and pein polished, ash shaft, with shaft protection sleeve

HANDSAWS

HANDSAWS

The benefits of the saws:

- from handsaws to hacksaws:
the right saw for every job
- mitre saws with universal saw blade
for wood-, plastic- and metalworking
- mitre boxes for accurate cutting of skirting boards,
mouldings and picture frames
- for the cleanest finish: kwb planes in
a variety of patterns

Range overview hand saws

WOODPECKER handsaw

2-component grip for fatigue-free working, especially quick and easy sawing in hard- and softwood on the push stroke, for quick, clean cuts in boards, battens, studwork, fine- and coarse fibreboard, PVC.

Page 142

WOODPECKER compass saw

Hardpoint teeth, ergonomically designed 2-component grip for fatigue-free working, for cut-outs, edges and holes in all types of wood and lightweight panels.

Page 143

WOODPECKER carpenter's saws

Japan toothing, triple ground, hardpoint tips, cut on the pull stroke, extra sharp, especially thin and flexible saw blade, quick and clean cut, for precision cutting in all types of wood and plastic.

Page 144 – 145

Bow saws

With blade, cross-ground teeth, hardpoint tips, peg teeth, with quick tension lever with knuckle guard, high frequency welded tubular steel handle, oval, for rapid cutting of solid, green and wet wood.

Well suited for
mitre boxes

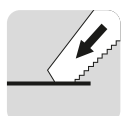

Plastic and plastic
coated laminates

Glued wood

Clustered teeth for
green and damp
wood

Push toothing

Green wood

Construction
timber/solid wood

PROFI-mitre saws

With universal saw blade, fine teeth, hardpoint teeth, for wood- plastic- and metalworking, sturdy and stable construction, with adjustable length stop to left or right, accurate angle setting 45° to 90° to the left or the right.

Page 149

Mitre boxes

Made from birch ply for exactly angled 90° and 45° cuts in wood and other materials, exact trimming of skirting boards, mouldings and picture frames.

Page 149 – 150

PROFI hacksaw

Ergonomically shaped grip, rubber lined, non-slip for fatigue-free working, with HSS saw blade for ferrous- and non-ferrous metals.

Page 151

Planes

Made from beechwood or metal, hand protection, for planing both large and small, difficult to access areas.

Page 156

Wood saws

WOODPECKER handsaw, low friction coating

PROFESSIONAL ★★★★★

Hardpoint teeth, anti-friction coating, ergonomically shaped 2-component grip for fatigue-free working, for clean cuts in all types of wood, no binding in the cut even on damp and glued wood

Art.-No.	Length	 inch/			Barcode
304245	450 mm	11		1	 4 0093 13 042451

WOODPECKER handsaw, Japan tooth

MEASURING TOOLS

MEASURING TOOLS

The benefits of measuring tools

- high quality measuring tools for every measuring job
- highly accurate measurement in every situation

Range overview measuring tools

PRECISA steel tape measure

Steel tape measure, concave tape, hardened, with special hook for inside and outside measurement, hook with strongly magnetic tip, automatic blade retraction, ABS plastic housing, breakage resistant, automatic tape brake, with EG type approval, accuracy class II, good for measuring internal dimensions for example drawers.

Page 164 – 166

Wooden folding rule

Folding wooden rule, scratch-, weather- and abrasion resistant lacquer coating, red graduations, built-in steel springs, solid rivets, white/yellow base colour, cm- and mm scale marked both sides and both edges.

Page 166 – 167

Digital vernier caliper, 150 mm

For exact inside, outside and depth measurements, crossover points for inside measuring, flat depth probe, caliper to DIN 862, LED display, graduation 0.01 mm/ 0.0005 inch, both scales can be zeroed, ideal for difference measurement, with thumb slider to lock the measured value.

Page 168 – 169

kwb depth gauge

Suitable for tool presetting and subsequently measuring the work result. The 0 – 100 mm or 0 – 5" measuring range is infinitely adjustable. The stainless steel measuring tongue is dimensioned on both sides and is fixed by a brass screw.

Page 169

kwb tip

Precise location and hazard-free drilling

Before drilling you can be sure that there are no hidden live cables, pipes or battens under the surface to be drilled.

The kwb SAFETY-FIXX detects any buried live cables under the surface to be drilled with one sweep of the hand.

SAFETY-FIXX

Voltage- metal- and stud detector

Art.-No. 011620 (on page 179 of the catalogue)

Carpenter's square / Joiner's square

Beechwood, clear lacquered, brass fastenings, mitre angle 45°, lacquered wooden handle, blued steel blade with mm graduation-blade length : 300 mm, for marking, measuring and testing.

Page 170 – 171

Spirit levels

VPA quality tested, with vertical and horizontal vials, precision spirit level, accuracy 0.5mm/m, ultra violet resistant, breakage- and impact resistant vials, precision ground working surfaces, printed cm scale, with protective end caps.

Page 175 – 177

Laser measuring tools

Designed for all situations where accurate measurements are required, e.g. hanging shelves, cupboards, tiles and picture frames with accuracy. For all work requiring a straight line or accurate measurement.

Page 178 – 180

Thermo-Fixx remote temperature measure

Infrared temperature measure, non-contact remote temperature measurement with infrared technology, ideal for detecting thermal bridges during renovation work.

Page 179

SAFETY-FIXX Voltage,metal and stud detector

PROFESSIONAL ★★★★★

Precise location and hazard-free drilling with the 3in1 SAFETY-FIXX interior location device. Before drilling you can be sure that there are no hidden live cables, pipes or battens under the surface to be drilled. The device simply calibrates itself to the work surface, then with one pass detects any live cables, metal up to 38 mm deep and drywall studs up to 18 mm deep. When the device detects something the diodes illuminate and there is an acoustic signal. Using the reference points on the housing you can accurately mark the first edge of buried objects on the first pass. By then passing the device back in the other direction you can mark the other extremity of the buried object, so exactly between the marks is the centre of the object. Measurement accuracy +/- 3 mm, 9 volt alkaline battery included, dimensions 15.5 x 6.5 cm.

MASONRY TOOLS

MASONRY TOOLS

kwb has everything for the professional

- spatulas of many types eg painter's scrapers, spreaders, taping knives and silicon finishers
- extensive range of tiling products
- trowels for many different uses e.g. spreading mortar for building and plastering
- floats for a smooth finish and uniform surface

Range overview masonry tools

Scraper

Removes wallpaper in corners and from edges, wooden and plastic handles, space-saving. Ideal for working on lime plaster, concrete and wood, for neat removal of fillers etc.

Page 190 – 194

Toothed adhesive spreader

Stainless steel blade, trapezium format, wooden handle, for removing adhesive, tile adhesive and screed.

Page 192 – 193

Tile spacers

Plastic, white, while laying tiles place the crosses in the joints between the tiles, so that the joint width between the tiles is uniform, and so that the tiles can't move after being laid

Page 200

Tile washboy sets

Washboy sets for tiles, great for washing down tiles, washing after jointing, plastering and building jobs, including black bucket with mangle.

Page 201

kwb tip

Kneepad

consisting of hard shells with a hinge and cushioned backing of closed cellular foam, high degree of mobility and anti-slip profile at the knee surface, ideal for tiling, working in the garden and other kneeling work, moisture and dirt-repellent, with wide, universally adjustable straps for better fit on the knee, thus improving the blood circulation when kneeling, acc. to DIN EN 14404, offers protection against cuts and stitches when kneeling on the grounds, performance categorie 2

Kneepad Kniefix-Gelenk

Art.-No. 922500 (on page 189 of catalogue)

Mason's line

Nylon mason's line, braided, for horizontal and vertical alignment of bricks and blocks

Page 205

Smoothing trowels

Stainless steel and steel types, straight edge or toothed, perfectly suited for applying and smoothing filler and mortar to flat surfaces, also for spreading adhesives during building work or tiling.

Page 213 – 215

Trowels

Stainless steel and steel types, for all bricklaying and plastering work, universal use, ergonomically shaped wooden or 2-component plastic handles allow comfortable working, suitable for application of plaster, screed and render.

Page 208 – 213

Floats

Plastic, with various facings, for achieving an especially smooth plaster surface.

Page 217 – 220

Mixer for Lacquer, Ø 70 mm

PROFESSIONAL ★★★★★

The kwb paint and varnish stirrer is made from nylon and has a diameter of 70 mm and length of 400 mm. For mixing all paints and varnishes in container sizes up to 15 kg and with flashpoints below 21° Celsius. The special stirring geometry of the kwb paint stirrer ensures good mixing, while the hexagonal shank guarantees a firm grip. The paint and varnish stirrer is designed to be used as a stirring paddle with power drills with an output of 500 W or over.

033224	240 mm		2	4 009310 332241

Tiling trowel, Belgian pattern

PROFESSIONAL ★★★★★

Hardened steel, heart-shaped, swan neck lacquered wooden handle, for applying mortar and tile adhesive

Art.-No.	Trowel length x width			Barcode
919716	160 x 120 mm		1	4 009319 197162

Smoothing trowel

PROFESSIONAL ★★★★★

Stainless steel, smooth, 2-component handle, for flattening and smoothing fillers, mortar and adhesives, for building work or tile-laying

Art.-No.	Trowel length x width			Barcode
924658	280 x 130 mm		1	4 009319 246587

Trowels, spatulas and drywall accessories

Smoothing trowel

PROFESSIONAL ★★★★★

Stainless steel, smooth, lacquered wooden handle, for flattening and smoothing fillers, mortar and adhesives, for building work or tile-laying

Art.-No.	Trowel length x width			Barcode
924638	280 x 130 mm		1	4 009319 246389

Smoothing trowel

PROFESSIONAL ★★★★★

Hardened steel, smooth, lacquered wooden handle, for applying mortar and tile adhesive

Art.-No.	Trowel length x width			Barcode
923728	280 x 130 mm		1	4 009319 237288

Smoothing trowel, plastic

PROFESSIONAL ★★★★★

Plastic, for application of e.g. Grout, mortar, tile adhesive, sealant, plaster for smoothing out irregularities and hollows on walls and floors

Art.-No.	Weight	Trowel length x width			Barcode
924538	250	280 x 140 mm		1	4 009319 245382

Adhesive trowel, toothed 2 sides

PROFESSIONAL ★★★★★

Stainless steel, lacquered wooden handle, for applying and smoothing plaster or filler on walls or floors, filling hollows, joints and holes, or for similar jobs with tile adhesive

Art.-No.	Trowel length x width	Tooth spacing			Barcode
924428	280 x 130 mm	4 mm		1	4 009319 244286
924438	280 x 130 mm	6 mm		1	4 009319 244385
924448	280 x 130 mm	8 mm		1	4 009319 244484
924458	280 x 130 mm	10 mm		1	4 009319 244583
924468	280 x 130 mm	12 mm		1	4 009319 244682

Trowels, spatulas and drywall accessories

Adhesive trowel, toothed all round

PROFESSIONAL ★★★★★

Hardened steel, lacquered wooden handle, for uniform application of tile and carpet adhesive

Art.-No.	Trowel length x width	Tooth spacing			Barcode
923818	280 x 130 mm	4 mm			1 4 009319 238186
923828	280 x 130 mm	6 mm			1 4 009319 238285

Papillon smoothing trowel, serrated on 2 sides

PROFESSIONAL ★★★★★

Stainless steel, lacquered wooden handle, special Papillon toothing, with bevelled outside edge, creates a mortar, filler or adhesive bed with a height of 5 mm without air pockets, without scratching and getting jammed, especially for deep-bed laying of tiles or slabs outdoor

Art.-No.	Trowel length x width			Barcode
924488	280 x 130 mm			1 4 009319 244880

Swiss smoothing trowel

PROFESSIONAL ★★★★★

Stainless steel, smooth, lacquered wooden handle, suitable for extensive application and smoothing fillers, mortar and adhesives, in particular for masonry works and plastering with different plaster

Art.-No.	Trowel length x width			Barcode
919450	500 x 130 mm			1 4 009319 194505

Flooring trowel

PROFESSIONAL ★★★★★

Hardened steel, narrow shape, lacquered wooden handle, light alloy brace, blade manually finished, for spreading mortar, plaster and screed over large surfaces, especially floors

Art.-No.	Trowel length x width			Barcode
919850	500 x 115 mm			1 4 009319 198503

Grating boards and straightening laths

Finishing float

PROFESSIONAL ★★★★★

Plastic, for finishing and patching of small areas of plaster, for areas not accessible using normal size trowels

Art.-No.	Dimensions			Barcode
925626	260 x 80 mm		1	4 0093 19 256265

Skimming spatulas

PROFESSIONAL ★★★★★

Plastic, for use with either hand on large surfaces for applying or smoothing plaster

Art.-No.	Dimensions	mm			Barcode
922808	800 x 120 mm	20 mm		1	4 0093 19 228088
922812	1200 x 120 mm	20 mm		2	4 0093 19 228125

H-profile skimming spatulas

PROFESSIONAL ★★★★★

Aluminium, H-section, for smoothing plaster over difficult substrates such as concrete, filling irregularities to give a good final surface

Art.-No.	Length			Barcode
062112	120 cm		2	4 0093 10 621123
062115	150 cm		2	4 0093 10 621154
062120	200 cm		2	4 0093 10 621208

Feather edge

PROFESSIONAL ★★★★★

Aluminium, feather edge section with centre bevel, for smoothing plaster over difficult substrates such as concrete, filling irregularities to give a good final surface

Art.-No.	Length			Barcode
062312	120 cm		2	4 0093 10 623127
062315	150 cm		2	4 0093 10 623158

Grating boards and straightening laths

Feather edge

PROFESSIONAL ★★★★★

Aluminium, plastic end caps, pointed profile

Art.-No.	Length			Barcode
062320	200 cm		2	4 009310 623202

Float

PROFESSIONAL ★★★★★

Plastic, for smoothing and removal of freshly applied plaster or render, for good adhesion and even surfaces

Art.-No.	Dimensions			Barcode
924938	280 x 140 mm		1	4 009319 249388
924948	320 x 180 mm		1	4 009319 249489
924958	360 x 200 mm		2	4 009319 249588

Float, plywood

PROFESSIONAL ★★★★★

Plywood, for smoothing and levelling freshly applied plaster or screed, lime-resistant, for levelling and smoothing lime plaster and cement, gives uniform surfaces with low wear and high strength

Art.-No.	Dimensions			Barcode
924838	280 x 140 mm		1	4 009319 248383
924840	400 x 150 mm		1	4 009319 248406

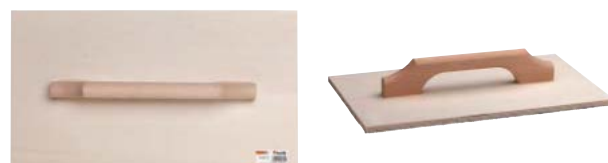

Blockwork sanding float

PROFESSIONAL ★★★★★

Plywood, with handle, 16 grit, for removing surface irregularities on lightweight building materials, for aerated concrete blocks, Styropor, Styrodur

Art.-No.	Dimensions			Barcode
924850	480 x 240 mm		1	4 009319 248505

Grating boards and straightening laths

Spare facing for blockwork sander

PROFESSIONAL ★★★★★

For part no. 924850, 16 grit, for levelling uneven surfaces on building blocks, for aerated concrete, Styropor/Styrodur insulation

Art.-No.	Dimensions			Barcode
924852	480 x 240 mm		1	4 009319 248529

Float with rubber sponge facing

PROFESSIONAL ★★★★★

Plastic, with 9mm sponge rubber facing, orange, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924728	280 x 140 mm		1	4 009319 247287

Float with rubber sponge facing

PROFESSIONAL ★★★★★

Plastic, with 18mm sponge rubber facing, orange, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924788	280 x 140 mm		1	4 009319 247881

Spare facing, foam rubber

PROFESSIONAL ★★★★★

For part no. 924728, 924788, orange, for making an extra-smooth plaster surface

Art.-No.	Dimensions	mm			Barcode
924789	280 x 140 mm	20 mm		2	4 009319 247898

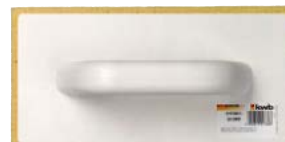

Grating boards and straightening laths

Float with absorbent sponge

PROFESSIONAL ★★★★★

Plastic, with 30mm absorbent sponge facing, for making an extra-smooth plaster surface, and for final cleaning after tile grouting

Art.-No.	Dimensions			Barcode
924738	280 x 140 mm		1	4 009319 247386

Spare facing, absorbent sponge

PROFESSIONAL ★★★★★

For part no. 924738, for making an extra-smooth plaster surface and for final cleaning after tile grouting

Art.-No.	Dimensions			Barcode
924739	280 x 140 mm		2	4 009319 247393

Float with sponge facing

PROFESSIONAL ★★★★★

Plastic, with 20mm sponge facing, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924748	280 x 140 mm		1	4 009319 247485

Float with foam rubber facing

PROFESSIONAL ★★★★★

Plastic, with 10mm foam rubber facing, green, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924758	280 x 140 mm		1	4 009319 247584

Grating boards and straightening laths

Float with foam rubber facing

PROFESSIONAL ★★★★★

Plastic, with 10mm foam rubber facing, black, for making an extra-smooth plaster surface, and for contouring of plaster surfaces

Art.-No.	Dimensions			Barcode
924768	280 x 140 mm		1	4 0093 19 247683

Float with felt facing

PROFESSIONAL ★★★★★

Plastic, with 10mm felt facing, black, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924778	280 x 140 mm		1	4 0093 19 247782

Spare facing, felt

PROFESSIONAL ★★★★★

For part no. 924778, black, for making an extra-smooth plaster surface

Art.-No.	Dimensions	mm			Barcode
924779	280 x 140 mm	10 mm		2	4 0093 19 247799

Float with sponge facing

PROFESSIONAL ★★★★★

Plastic, with 40mm sponge facing, for making an extra-smooth plaster surface

Art.-No.	Dimensions	mm			Barcode
924798	280 x 140 mm	40 mm		2	4 0093 19 247980

Spare facing, sponge

ADDITIONAL HAND TOOLS

ADDITIONAL HAND TOOLS

kwb has everything for the professional

- Our assortment of additional hand tools meets all the needs of daily doing

Range overview additional hand tools

Glass cutter

Tungsten carbide, with 6 cutting wheels, high cutting performance, for glass up to 8mm thick, for glass cutting.

Page 224

Suction lifter, multi-purpose

For glass and other smooth surfaces, suction lifter with aluminium housing for transporting heavy, awkward objects, for example glass, doors, windows and sheets, lifting capacity max. 25kg.

Page 224

Marker pen

broad, chisel point, for prominent marking, waterproof, oil- and dirt proof, quick-drying, for marking wood, cement and concrete surfaces, copper, castings, wood and metal.

Page 225

Marking crayons

weatherproof, high-visibility marking, to mark on dry and wet wood, paper, card, metal, stone, asphalt, tiles, plastic, unwrapped / without label.

Page 226

kwb Tip

The kwb Suction lifter

Ideal for the transport of heavy objects, glass doors or mirror
120 mm Ø, up to 60 kg

Suction lifter, double

Art.-Nr. 179990 (on page 224 of catalogue)

Carpenter's pencils

Unsharpened, oval, red, HB lead, ideal for handcraft, construction, household, and hobby; writes on various surfaces such as wood, concrete, brick, stone, plasterboard.

Page 226 – 227

Drain cleaning coils

Spring steel, with winding handle, with claw and handgrip, for clearing blockages in toilets and drains.

Page 227 – 228

Barrier tape

Red-white striped film barrier tape on a roll, width: 80 mm, length: 100 m

Page 228

Pipe cutter

With 1 cutting wheel and 2 guide rollers, for copper, brass, light alloy, hard plastic and thin-walled steel tubes, with scraper for deburring the inside of the cut tube.
